## Ghost Towns of Alberta

People have always been explorers and settlers. In every generation, women and men with big dreams, packed up their belongings and look for a better life. A hundred years ago that meant farms of their own, working in coal mines and panning for gold. They found their homes in small hamlets or open fields. Some of those settlements grew to be prosperous villages, while others have faded away through time. Find the names of some Ghost Towns of Alberta, then read their stories: <http://www.ghosttownpix.com/alberta/siteindex.html>
